www.hfgphoto.com

Welcome!

Hi! I'm Heather. Nice to potentially meet you!
You're embarking on the journey of welcoming a new little one.
THAT'S SO EXCITING!!!!

I enjoy capturing all of life's precious moments so it only seemed natural for me to dive into maternity/newborn photography after watching my wedding clients expand their family. I'm so honored that you are considering me to document this next chapter of your life!

This guide will walk you through all of the information regarding maternity and newborn photography at HFG Photography!

M A T E R N I T Y P H O T O S

Your body is growing a tiny human and that is absolutely magical. Maternity photos encapsulate the sweet time before your family grows. These sessions are best held at 32-36 weeks along.

NEWBORN PHOTOS

Your little squish has arrived, YAY!! They change so much, even in 8 weeks time. Newborn photos capture when they are still so small. Newborn photos are typically done when your baby is 5-21 days old.

M I L E S T O N E P H O T O S

Don't blink! Your little is growing like a weed! By the time they turn one, they have turned into a small, active being. Milestone sessions document their growth during their first year. Sessions are done at 4, 8 and 12 months old.
